Agenda Review

- Additional Items?

Short Project Overview and Update by EPA

Engineering Analysis/Cost Analysis (EE/CA)

- New Information
- Alternatives Discussion

Status/Update on discussions with the Navy

. site solely in Suquamish zone

Next Steps

- Summary Judgment - re: culverts; 20 WA tribes sued the state, successfully declares culverts that inhibit fish passage as illegal. (given to Rick)
- Has not raised this Gorst issue to tribal council, hoping to handle things at our level
- Very curious re: our involvement w/ DOD
- WSDOT did a dredging project near the site; w/o permit; looking to dispose of dredge spoils; PCBs +; analyteals provided to us
- Sources of funding. Neighbor to landfill has applied for gravel permit. Some cost savings there.
- * Culvert is not an option
 - mtg w/ technical folks to brainstorm all options of remedy. stakeholders
City, County, WDFW
Tribe, private prop
owners, Navy
 - Design for stream bypass in possession of state
 - Can tribe help get Navy to table - they are always at loggerheads w/ Navy, but may get involved; it would be a strategic decision
- * Puget Sound Partnership - funds? Tribe is getting # and using it for restoration projects
 - * Jeff check into this
- HRS - look to see if considered Gorst Creek being an alternate water supply *Jeff
 - Get all docs together, so we are all on same page.
